## PHILIPS

## Eco passport

## Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

## Philips Smart Air purifier S2000 & S1000

Mars LE uses an upgraded VitaShield technology which can effectively remove particles as small as 3nm, including PM2.5, viruses, Bacteria, pollen, dust and pet dander, filter out harmful gas (CHN market). Smart auto ambient light control, adjust light automatically according to room environment, take care of you and your family in the most gentle way. Knowing real-time air quality in one glance: showing numerical pm2.5 feedback, allergen level on screen that gives you peace of mind in the easiest way.

- Cardboard: minimal of 90% recycled content
- Plastic: minimal of 35% recycled content
- No use of polyvinylchloride (PVC), expanded polystyrene (EPS) in packaging

AC2959

- · The housing material of the product is free of polyvinylchloride (PVC)
- The housing material of the product is free of brominated flame retardants (BFR)

This passport applies to AC2936, AC2939, AC2958, AC2959, AC1758 \*CADR= Clean air delivery rate

Energy

Sound level: 34dB (A) in silent mode

AC2936, AC2939, AC2958, AC2959;

• AC2936, AC2939, AC2958, AC2959:

Power level: 46W

Turbo mode: Yes

· Cleaning performance:

330 m³/h • AC1758: 300 m3/h

>5 CADR/Watt\*

Annual energy consumption

AC1758: 68kWh/vear\*\*

74kWh/year\*\*

\*\*based on daily use of 12 hours in on mode, and 12 hours in standby mode
